Kevin Muñoz

I am a software developer with expertise in designing, coding and maintaining software applications. My focus is on writing efficient code, performing rigorous testing, and working as a team to achieve project goals. I am committed to continuous learning and passionate about problem solving in software development.

Experience

I am a technology enthusiast with programming skills and a passion for problem solving. I have worked on personal projects using Python and JavaScript, and have improved my skills through online courses. I am looking for opportunities to grow as a software developer and am ready to take on new challenges in a collaborative environment.
